Re: sign for 402 S. Gay St.

I would like to address the concerns of the LED illumination for the proposed Design Innovation sign.

The DIA letters will be routed out and the LED lights will be inside the perimeter of the letters, completely out of view from any angle.

The look that we are after is a soft halo effect.

The remainder of the lettering will be vinyl and not illuminated.

The sign itself will be fabricated from aluminum and the acrylic enamel paint will give many years maintenance free use, that will further the clean and tasteful look of the Downtown.

Darrell Bell

A handwritten signature in black ink, appearing to read 'Darrell Bell', with a long, sweeping horizontal line extending to the right.
