Project: Gay Street Crosswalks

This project will replace the existing eight brick crosswalks along Gay Street from Summit Hill Drive to Union Avenue with colored stamped concrete crosswalks. The concrete will include integral color throughout and color hardener finish on the surface to match the color of the existing brick sidewalks and crosswalks on Gay Street. The stamped pattern will include a stacked brick pattern on either side of the thermoplastic band and leave an unstamped section in the middle for ADA accessibility.

Proposed Materials:

Integral color in the concrete

Color hardener on the surface of concrete

Stacked brick stamping pattern

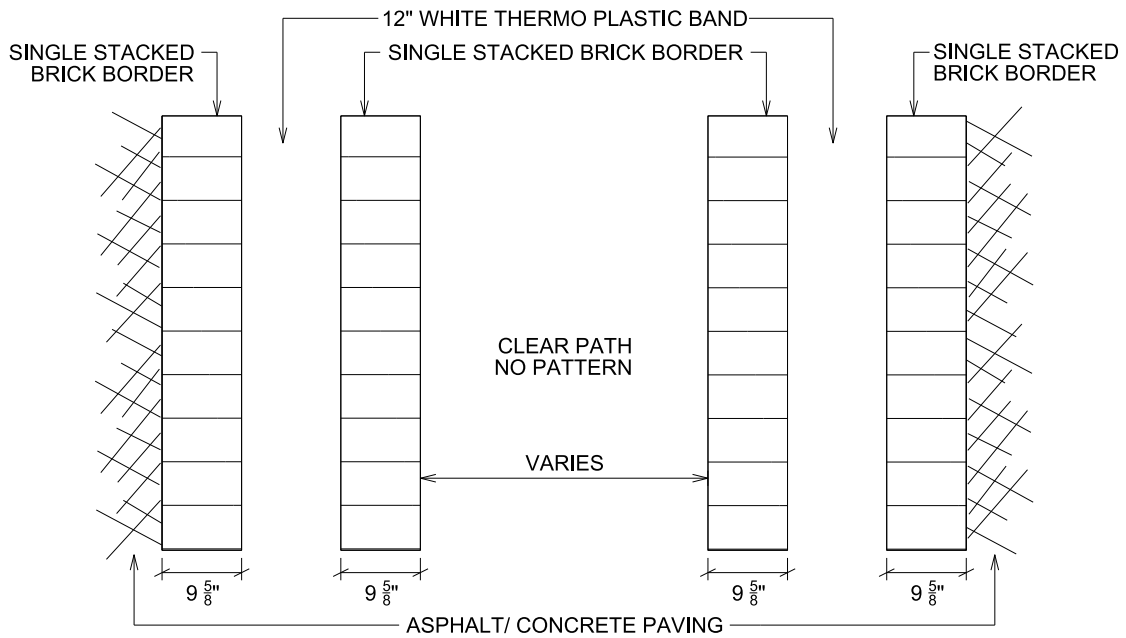

Attached:

Proposed plan for stamped brick pattern
