Downtown Design COA Application – Knoxville Marriott Conversion Model Room

Dear Mr. Reynolds,

We are submitting an application for a Downtown Design Overlay District Certificate of Appropriateness for the Knoxville Marriott Conversion Model Room project, located at 525 Henley Street. The model room is the first phase of a comprehensive renovation of the existing Holiday Inn. We are only applying for a COA for the limited model room scope of work at this time. The full renovation will be submitted for review separately, but we have included conceptual design renderings for the full project for context. The exterior work consists of the following:

1. Removing the existing windows, EIFS, and louvers of two room on the southeast corner of the second floor.
2. Adding new storefront windows.
3. Painting a portion of the south and east second floor exterior wall.

We look forward to working with you on this project.

Sincerely,

MCCARTY HOLSAPLE MCCARTY, INC.

Brad Raines, AIA, LEED AP BD+C

Attachments: COA Application, Existing Photos, Proposed Exterior Windows, Window System Details, Full Renovation Conceptual Package.

Aluminum Profiles

We have an extensive offering of aluminum profiles to meet your needs. If you need to precisely match an existing profile, we can have dies created and extruded to specification. We can also work with your material, saving you additional costs.

Our standard dies are engineered for structural durability without causing excessive weight.

Surround Profiles

New profiles are added periodically. For the most up-to-date offerings, please visit www.FrontLineBldg.com.

SDL Profiles

*Profiles are non-standard and may be subject to set-up / minimum charges and longer lead times. Custom profiles can be created; please inquire.
